THEREFORE, the Energy Resources Conservation Board, pursuant to the Coal Conservation Act, being chapter C-14 of the Revised Statutes of Alberta, 1980, hereby grants to 334755 Alberta Ltd. (hereinafter called "the Permittee") a PERMIT to continue to develop a mine site in the Tent Mountain area, subject to the provisions of the Act and regulations and orders pursuant thereto and to the following terms and conditions:

1. The mine site shall be designated as Mine No. 1695.

2. This permit shall apply to 750 hectares, more or less, in Township 7, Range 6, West of the 5th Meridian, as shown in Appendix A hereto attached.

3. The Permittee shall carry out all mining operations to the satisfaction of the Board, and in a manner that

- (b) does not preclude or render more difficult the recovery of other coal recoverable by practical and reasonable operations.

4. The Permittee shall selectively mine all oxidized or inferior coal encountered in the mine and market, dispose of, or store such coal, to the satisfaction of the Board.

5. The Permittee shall dispose of overburden discard materials and reclaim mined out areas and discard areas in a manner satisfactory to the Board and the Department of the Environment.

6. The Permittee shall salvage sufficient regolith material, suitable as a growth media, from site clearing and stripping operations for use in any subsequent reclamation program for the mine site.

7. The Permittee shall meet all applicable Provincial standards and requirements related to the preservation of the environment to the satisfaction of the Board and the Department of the Environment.

8. On or before 31 March of each year, the Permittee shall submit to the Board and the Department of the Environment a report, supported by maps or other appropriate materials, showing for the previous year

- (a) the general progress of the reclamation scheme, and
- (b) the condition and appearance of all fully reclaimed lands.

9. The Permittee, prior to commencing mining operations in any open pit or underground mine within the permit area, shall apply for and obtain a licence from the Board to commence such operations.

10. The Permittee shall submit to the Board, for its approval, an economic evaluation of the mining limits of any new open pit mine prior to commencing operations in such mine.

11. (1) Insofar as it affects matters of the environment, the application is subject to the approval of the Minister of the Environment.

(2) The approval of the Minister of the Environment, in accordance with subclause (1), is attached hereto as Appendix B, and this permit is subject to the terms and conditions therein contained.

12. The Board may at any time

- (a) cancel or suspend this permit, in whole or in part, for failure of the Permittee to comply with any provision of the Act, the regulations or the terms and conditions set out herein; or
- (b) amend this permit or make such other order as it thinks appropriate under the circumstances.

13. Permit No. C 76-58 is hereby rescinded.
